No homes sampled today; no additional homes scheduled yet.

Site team continues to finalize other data packages in preparation for roll-out over the next several weeks.

EPA and ATSDR completed three home visits today and the visits were cordial. One meeting lasted two hours and other two about 45 minutes. The residents' questions covered general topics, including human health and EPA procedures. No media interest.

Site team waiting to hear back from the remaining 3 residents to schedule a meeting.

Alternate water continues to be provided as necessary.
